

BAU Modular seating
Design: Note (design studio), 2023

LAMMHULTS

ANTI-ORDINARY, VERSATILE AND EXPRESSIVE

Bau is a modular seating series that ignores conventional ideas of right and wrong. It can be employed as a solitary easy chair or combined to create a playful variety of seating configurations. The collection includes a linking table, whose geometrical edginess contrasts with the sofa's laid-back personality.

Bau is softer, lower, and more eccentric than the often somewhat rigid and conformist modular systems to which we have become accustomed, particularly in workplaces and public spaces. Bau consist of 6 modular units that can be used as solitaires or be combined to create playful seating configurations.

“Our aim was to create a piece of furniture with a lot of character that makes people happy and creative”

— Malin Engvall, one of the designers at Note.
