

S70-12 Coat hanger
Design: Börge Lindau & Bo Lindekrantz, 1968

TIMELESS BEAUTY AND FUNCTION

The S70 collection was launched in 1968, and it originally included 12 items, ranging from ashtrays and coat hangers to tables and chairs. The commanding design element of the series, both visual and structural, was steel tubing, which gave the series its name. The large diameter of the tubing was a radical departure. This feature plus a range of bold colors brought instant global recognition to the series and to Lamphults.
